# ALL WALL STREET

## DAY PROVES VERY DULL

Among the large systems which ported their annual earnings this week were we archison and Northern Pacific, and both of these showed an enormous growth in operating expenses. In spite of that, the roads earned net enough to provide liberal dividends, and the belief is now general that American railroads will not at any time be pressed hard enough to endanger their bonds. This was the true reason of the good demand for bonds, for bonds are really cheap.

Money Pleutiful.

Although money seems to be in plentiful supply for call loans, the time money market is stiff. The heavy loss of cash by the New York banks and by the Bank of England shows a world-wide crisis in money affairs. Political conditions are disturbing Europe almost as much as America. The possibility that the political make-up of the next Congress will be such as to render it impossible to reach a sefinite decision in regard to the reform of currency also tends to make money timid.

Readjustment of Steel prices consisted of announcements made at prac-

Readjustment of Steel prices con-

money timid.

Readjustment of Steel prices consisted of announcements made at practically the same time by the Steel Trust and the leading independents, naming the same figures on the same grades of material. This announcement of steel men makes it appear that prices are already agreed on.

Specialties were unusually prominent throughout the Week. Westinghouse and General Electric advanced on the old rumor of consoliation, which was denied as usual. Western Union was strong because of a revaluation of its assets. The experts chopped out from its balance sheet old and dead material that had been valued at \$18.731.143, and announced that the valuation now placed on the property of the company is actually up to date. Stocks of fertilizer companies were strong on the theory that the farmers would buy more liberally next year, because of the wealth realized from this year's bumper crops.

The revolution in Portugal and the discovery of Cholera had almost entered New York harbor had no innuence on the stock market.

On the Curb.

Virginia 8, Old Cand B, 1929 544, 5327-8.  Bid Asked.  Virginia 8, Old Cand B, 1929 544, 5321-8.  LOUAL MARKET QUOTATIONS.  June 14.55 19.95 14.57 14.95 chies; october 14.57 in 19.50 in 19.
The postforement of the rate desion is due largely to the confusion aused by the hearings given to shipters, who have presumed to be the niv ones interested, forgetting that he public pays the freight and that he public is anxious to have the uestion settled so that business can on ahead. President Taft gave additional assurances that he would insist in a square deal for the railroads, and twas the President's statement that ed the financial world to accept the costponement of the rate decision with aimness.  Among the large systems which ported their annual earnings this week were the Atchison and Northern Pafic, and both of these showed an normous growth in operating exenses. In spite of that, the roads arned net enough to provide liberal ividends, and the belief is now gental that American railroads will not	The control of inspection. THE NEW TOWN.

Alberta is still Growing—New Houses
Going Right Along Up.

[Special to The Times-Dispatch.]
Alberta, Va., October 8.—The new town continues to show real building activity. Workmen got busy this week on a livery stable, this being regarded as a splendid point for that kind of business, Drummers come here by both
